# Department of Labor

### Employment Standards Administration

### Minimum Wages for Federal and Federally Assisted Construction

## DEPARTMENT OF LABOR

### Employment Standards Administration

### Minimum Wages for Federal and Federally Assisted Construction; General Wage Determination Decisions

General Wage Determination Decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates, (37 FR 21138) and of Secretary of Labor's Orders 12–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determination frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General Wage Determination Decisions are effective from their date of publication in the **Federal Register** without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR, Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

### Modifications and Supersedeas Decisions to General Wage Determination Decisions

Modifications and Supersedeas Decisions to General Wage Determination Decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the Modifications and Supersedeas Decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138) and of Secretary of Labor's Orders 13–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing General Wage Determination Decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and Supersedeas Decisions are effective from their date of publication in the **Federal Register** without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Government Contract Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rulemaking procedures prescribed in 5 U.S.C. 553 has been set forth in the original General Wage Determination Decision.

### Modifications to General Wage Determination Decisions

The numbers of the decisions being modified and their dates of publication in the **Federal Register** are listed with each State.

DECISION NO. CT79-2011

PAID HOLIDAYS:
A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; F-Christmas Day.

FOOTNOTES:

a. 7 paid holidays A through F, and Good Friday
b. 1 paid holiday: Good Friday. Employee must work 3 days during the work week in which the holiday falls, if scheduled, and if scheduled, the working day before and the working day after the holiday.
c. 4 paid holidays: B, C, C, and Good Friday. Employee must be employed 14 consecutive days immediately prior to the holiday.
d. 3 paid holidays: C, D, and E
e. $.50 per worker per year
f. 3 paid holidays: B, C, and D
h. The last 4 regular working hours prior to Christmas Day Day shall be paid half day.
i. 6 paid holidays: A through F
j. Eployer contributes 4% of basic hourly rate for 5 years or more of service or 2% basic hourly rate for 6 months to 5 years of service, as vacation pay credit.
k. 9 paid holidays: A through F, Washingtons; Birthday, Good Friday and Columbus Day
l. 9 paid holidays: A through F, WAshington's Birthday Goode Friday and Columbus Day
m. The last 4 hours on Christmas Eve is a paid half day if employee has worked 5 consecutive days prior to Christmas Eve
n. 9 paid holidays A through F, Washington's Birthday, Good Friday and Xmas eve provided the employee had worked 45 full days for the employer during the 120 days prior to the holidays and works the scheduled work days immediately preceding and following the holidays
o. 9 paid holidays: A through F Washington's Birthday, Good friday and a floating holiday per year provided the employee has been employed for a period of 5 working days prior to the holidays and works the scheduled work days immediately preceding and following the holiday.
p. 2 paid holidays: C and D providing the employee works the day before and the day after the holiday
q. 4 paid holidays: B, C, D, and E providing the employee works the day before and the day after the holiday
r. 1 paid holiday: D
s. Paid holidays: D, and the Friday after Thanksgiving is a paid half day, and December 24, provided it falls on a working day, is a paid half day
t. 3½ paid holidays: C, D, E, and the half day Friday after Thanksgiving
u. 1 paid holidays: D
v. 2 paid holidays: B, D, & half day paid holiday the Friday after Thanksgiving and the last working day before Christmas, & Good Friday paid half day

CLASSIFICATION DEFINITIONS
POWER EQUIPMENT OPERATORS

CLASS 1 - Austin-Western or similar type Under 25 ton, austin-western or similar type 25 ton or over, auto grader (CMI or similar, backhoe, batch plant when conveyors are used for direct feedling or discharge, batch plant no conveyors for direct feeding or discharge (without oiler), cableway, caisson drill, central mix plant, cranes (excluding overhead)(truck or crawler type), cranes tower (mobile) cranes tower (stationary) (climbing type) use of oiler to be discussed at pre job) cranes tower (climbing type) cranes hydraulic self contained over 18 ton cranes hydraulic self contained - 18 ton or less, derrick traveler (self propelled), derrick (all types )(when assistance required it will be an oiler or apprentice) derrick boats, dragline, dredge, engineer maintenance, franki or similar type pile driver, gradall (remote control or otherwise), helicopter (when used for erection purposes), helicopter hoist operators (when used for erection purposes), hi-lift 4 yds. or over, hoist-hod @ cages up to 10 floors) Chicago Boom Attached hoist (50 ft. or over) (stacks, stoves or furnaces) hoist (slipform jobs hop to or similar type with 180° swing hop to or similar type with 360° swing kocal kochring scooper, metro chip harvester or similar type, mix mobile or similar type (with self-loading attachment), mix mobiling or similar type, mucking machine (tunnel), multiple bowl machines, pipe driver (sonic or similar type) (when assistance required it will be an oiler or apprentice), post driver-guard rail (truck mounted), post driver-guard rail (skid type), pumpkrete - mobile or similar type, quad nine, shovels (all types), slip form paver (CMI or similar), tractors - Boom Mounted (all types), tractors (all types with hydraulic backhoe attached), tug boat, whirley

DECISION NO. PA 79-3007

CLASS 1-A - Austin-Western or similar type under 25 ton with jib, austin-western or similar type 25 ton or over with jib, cranes (boom or mast 100 ft. or over up & including 150 ft. +$.25) (truck or crawler type), cranes mobile (any type 15 ton or over placed on any bldg. structure + $.25), hoist-hod (2 cages over 10 floors) Class I rate +$.25, hoist single cage with

CLASS 1-B - Cranes (boom or mast over 150 ft. up to & including 200 ft. + $.50) (truck or crawler type), engineer lead

CLASS 1-C - Cranes (boom or mast over 200 ft. + .75)

CLASS 2- Asphalt plant operator, Athey loader, Auger - truck or tractor, mounted, back filling machine, boat material or personnel carrying (powered) boat - job work (inboard or outboard), bulldozer, cable layer, compactor with blade, compressor (1) and air tugger (1) (combination), compressor (1) and gunite machine (1) (combination), concrete belt placer, crane - overhead, crushinf & screening plants, drill - davey or similar type drill - core (truck or skid mounted), drill - well & core (truck mounted), elevator (New buildings),euclid loader, excavating equipment (all Other), forklift-lull or similar, grader, grader-elevating, greaser-equipment (head), hi-lift - less than 4 yds., hoist - one drum (4 floors or over), hoist - hod (buildings 4 floors or more), hoist - ( 2 drums or more in one unit), jumbo operator, locomotive, lift slab machine (hydraulic) mixer - paving, muching machine, pipe cleaning machine,refrigeration plant (used for construction jobs that is, cooling concrete & holding banks), ross carrier (or similar type), scoop (single bowl) (self-powered & tractor drawn), spreader - concrete, asphalt and stone, tower mobile (hoisting or lowering material), trencher, well point systems, (The following machines shall be considered minor), compressors (3 within a reasonable distance); generators electric (3) ( over) 5 KW up to 20 KW), pumps (1½" discharge or less) ( 4 to 5 within reasonable distance), pumps (3) (over 1½" discharge) (within reasonable distance), welding machines ( 4 to 6 within reasonable distance) (other than electrically driven), grout pump (10 H. P. or over), elevator (when used for alterations & remodeling all buildings), paver operator - asphalt (spreader), pumpkrete or similar type (not self-propelled), pumpcrete machine operator (stationary), tire repairman (when assigned job), welder (repairman)

CLASS 3 - Boiler, compactor (ridden or self-propelled), compressor (over 125 CFM and air pump), compressor (1) and sand blasting machine (1), (combination), crane (carry), curb builder (self-propelled), drills-well & horizional truck mounted, forklifts (ridden or self-propessed), hoist one drum (regradless of power used), pavement breaker (self-propelled or ridden), pipe dream, roller, saw (concrete), soil stabilizer (pump type), stone crusher, stone spreader self- propelled, tractors (when used for snaking and hauling), tube finisher (CMI or similar type), tugger, truck, (winch) truck or hydraulic boom (when hoisting & placing), (The following machines shall be considered minor) compressors (2), generators (2 ), mortar machine over 10 cu ft., and single unit conveyor, pumps (1½" discharge or less ( 2 to 3), pumps (over 1½" discharge (2) in bank) (within reasonable distance), welding machine (2 to 3), (other than electrically driven)

CLASS 3-A - Conveyors 4 units or more

CLASS 4 - Ballast regulator, boring machine, broom, power (except push type), compressor - single (over 65 CFM), conveyor over 1 and up to 3 units (regardless of power used) form line machine, generator (over 5 KW), hoist (monorail) (regardless of power used) hoist roof (regardless of power used), huck machine or similar type, mixer concrete (regardless of power used) mixer mortar - over 10 cu. ft. (regardless of power used) pump (over 1½" discharge regardless of power used) spray cure machine (power driven) steam jenny (or similar type) syphon (steam or air) welding machine single (300 amp or over) (other than electrically driven) plant, private or industrial air of steam valve

CLASS 5 - Compressor - 65 cubic ft. or under (regardless of power used) conveyor one (1) unit (regardless of power used) heaters - up to and including 6 jack motor hydraulic (single type) power driven ladavator, mixer mortar, (10 cubic ft. or under), mulching machine, pin puller (powered) pulverizer, pump - 1½" discharge or less, seeding machine, spreader side delivery, shoulder (attachment) tie tamper (multiple heads) tractor farm (when used for landscaping) water blaster, oiler-truck crane 50 ton up to not incl. 100 ton

CLASS 6 - Brake man, deck hand,helicopter signalman, oiler, mechanic helper

CLASS 6-A Crane truck oiler & fireman

CLASS 6-B Oiler - Truck crane 50 ton up to & incl. 100 ton

CLASS 6-C Oiler - Truck crane 100 ton and over
